A&A 437, L43-L46 (2005), DOI: 10.1051/0004-6361:200500135

**Key words.** Sun: activity – Sun: faculae, plages – Sun: magnetic fields – errata, addenda

**Erratum**

- The given central wavelength of the interference filter used for our observations in the blue CN band-head is wrong: The correct value must read 387.92 nm.
- The *Y*-axis label in Fig. 4 was misprinted. The correct label is C(CN)/C(G-band).

These corrections are only typographical in nature, and none of the results or conclusions of the paper are affected. We apologize for any inconvenience, which may have been caused by these mistakes.
