

Findings relevant for IDIS from Helsinki N2 meeting

N7 Actions list

- Select 2 science cases for developing the Req draft 1:
 - One related to Cassini-Huygens (Template available)
 - One related to Rosetta (Template to be prepared)
- IDIS will include a data base of personnel/ institutions with relevant knowledge
- Study the need to provide a data base for all those data produced by laboratory or ground observations and in case develop a standard format.

N7 Actions list

- Models and Lab data should be marked in order to show if they are validated or not
- IDIS will include the meetings relevant to the subject of the query
- Verify and if not extend the forum to all the coordinators or active participants
- Call for a N7-N2 meeting (end of October –mid November date TBC within September 4)

N2 actions for IDIS

- Prepare a science case for Mars that could address results from existing instruments (or on comparative planetology on Mars and Venus)
- Prepare the list of personnel/laboratories
- Provide and updated list of the relevant Links (this will be shared with N7)
