Inputs needed from the users to describe an available resource
(via a web form)

- 1) Institute/Labo registration (Gerard Chanteur)
  - Name
  - Address
  - City
  - Country
- 2) Once for all, registration needed from the Europlanet participants (Participants)
  - same unique registration for everybody, or better, 1 individual login
  - Name
  - Email
  - Affiliation (labo/institute)
  - contribution activity
  - Experience(s) that can be offered (Earth based, space based, modeling & simulation, lab) : multiple selection
  - Are you a Science Contact
  - Are you a Resource Contact (resources contributor, website updater)
- 3) Resource submission (Gerard Chanteur, then participants) :
- **Format Type** : web page, doc, data file, database
- **Experience(s) type** (Ground based, space based, modeling & simulation, lab) : multiple selection
- **URL**
- **Related Science case(s) (optional ?) : multiple selection possible**
- **Location** (institute)
- **Person in charge** (by default, the contributor) : selection from a list (for the institute)
- **Description** (**optional**)
- **How to access & use it** (**optional, only if needed**), or link to a user manual (doc or web page)
- **Scientific meta tags** (keywords) list (*TODO : define a list*) : PAC codes ?
- **Special (new) keywords**
- **Associated resources (optional)**
